What is a virtual race?

Team Save the Children is launching its first Virtual Race Series – a series of 5k runs/walks based on the organization’s three pillars of work: health, education, and protection. During the months of March – June, participants can register for one or all three races. You have the flexibility to run anywhere, any time and at any pace! For each race completed, finisher medals and certificates will be awarded.

Race all three!
